**Immigration History Research Group – University of Toronto and York
University CERTIFICATE** for Dr. Tania Fontenele

We are pleased to issue this certificate in recognition of the screening and seminar discussion of your important documentary film, ***Dust and Lipstick - 50 women in the construction of Brasilia***, held in Toronto on Wednesday, November 29, 2018.

As the host for the evening, I was very pleased that you accepted my invitation to come to Toronto to screen and discuss your film. As a Research Group composed of scholars and PhD candidates deeply committed to the dissemination of research on migration, including female migration, the members were tremendously impressed with the quality of the film and the diversity of women who recounted their experiences as pioneers in Brasilia.

As per our usual format, the night began with an informal dinner, followed by the screening and seminar. Group members very much appreciated your expertise on the subject matter. The film prompted an exciting discussion on Brasilia and on the role of women in city- and nation-building.

We wish you the best of luck in your continuing research on the pioneering women of Brasilia, including their children, who grew up in what many considered at the time to be a social utopia.

On behalf of The Immigration Group,

Franca Iacovetta

Professor of History

University of Toronto
